

20 Microns Receives CRISIL A/Stable and A1 Ratings

14 August 2025

20 Microns Limited received a CRISIL A/Stable long-term rating and CRISIL A1 short-term rating for its banking facilities.

CRISIL's rating rationale referred to the company's established market position, experienced promoters and management, operating efficiency and healthy financial risk profile. The assessment also considered factors including the company's working-capital cycle, regulatory sensitivity and revenue concentration.

The ratings provide an external assessment of the company's credit profile and form part of the company's broader financial and banking framework as it continues to invest in capacity, mining resources and product development.

20 Microns remains focused on maintaining financial discipline while supporting its planned investments in industrial minerals and specialty chemicals.

This is a reconstructed editorial draft, not a verbatim original press release. Confirm dates and financial or regulatory statements before publication.
